-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 9-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Briscoe et al. (US Patent 858,258) in view of Fujio (JP 02154992).

Briscoe et al. discloses a method for making a heat pipe assembly, the method comprising providing a heat pipe 14 having an envelope, the envelope having two elongated flat sides and two curved portions connecting the flat sides, the elongated sides having a length that is substantially greater than a radius of curvature of the curved portions (figs. 1 and 2), forming a fin from a plate by punching a hole through the plate, the hole sized and shaped to accommodate the envelope, the hole being defined by two elongated flat sides of the plate and two curved portions connecting the flat sides, the elongated flat sides being formed so as to have a length that is substantially greater than a radius of curvature of the curved portions (figs. 1 and 2), the plate being further formed so as to have two collar portions adjacent to the hole, the collar portions extending approximately in a direction normal to the plate, wherein the two collar portions are separated from one another by a pair of slots each being centrally defined in a respective one of the two curved portions of the plate (figs. 3 and 4), and placing the fin on the envelope, see page 1, lines 93-106 and page 2, lines 1-5. Applicant

Art Unit: 3726

should note that one of ordinary skill in the art will know not to provide cut-outs on the flat sides of the collars of Briscoe et al. when the fins are joined to the heat pipe by other conventional joining methods such as brazing as attested by Fujio, see abstract.

Applicant should also note that the different methods of forming the collar portion such as by stamping or drawing are conventional in the art.

Response to Arguments

3. Applicant's arguments with respect to claims 9-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3726

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
